ECONO ROLLER MILLS

ECONO MILL

The mill on the right shows our standard hopper. It will accommodate a 5-gal pail. On the left is our extended hopper. It effectively doubles the capacity of the hopper.

Capacity: 50 bu/hr (2000 lb/hr malt barley)

Weight: 275 lbs.

Dimensions: 20" wide x 40" front to back x 34" tall

Rolls: 6" wide x 8" diameter

Rolls can be hardened for extra 1/2 life

FLEX AUGER BOOT (FAB)

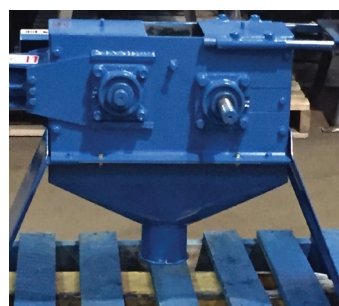

HARD AUGER or FLEX AUGERS

Your pencil auger can be used with the Econo mill, or we can custom-build you one to the length you need. Common sizes are 4" and/or 3" augers. Pictured above with an auger boot

The FAB system has proven the most popular boot. It brings the discharge down to a 6"x10" opening. This boot is designed to work with flex auger systems or can be used to confine discharge. Right: 12" extension legs used to raise the mill. Also available in 18".

OPTIONS:
45° Adapter

FUNNEL BOOT

Brings discharge to 4" (or 6") opening.

Opening can be round or square depending on customer requirements.

WE ARE A CUSTOM FABRICATOR AND CAN INCORPORATE MODIFICATIONS YOU NEED RIGHT INTO THE BUILD.
